

## COUNTERS EC

- Continue by placing the collar.
- Finish construction by covering the collar with the top desk.

- If a logo is included, place the logo support into the holes in the desk and place the logo on the completed EC counter.

### Note:

- When using the EC counter with doors DO NOT carry the counter by holding the top desk. Before dismantling the counter release ALL the sliding bolts.
- When packing always fold the sides inwards so they are on the inside of the counter.

## EUROcounters EC

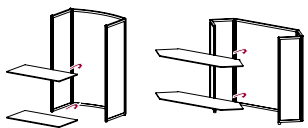

instruction manual
